

Mezuzah

A mezuzah is a case that can be attached to the doorpost of a house. Mezuzahs are beautifully decorated on the outside with different designs. On the inside is a small parchment scroll with words from the Torah. The text says there is one God, who you should love with all your heart and all your soul. That you should teach these words to your children. And you should inscribe them on the doorposts of your house. This way each time you come in or you go out, the mezuzah reminds you of the Torah.
